

## EXHIBIT VIII.C.14.b – Description Traffic Circulation Plans

---

*Submit as Exhibit VIII.C.14.b. a description of traffic circulation plans for the Project Site including ingress and egress of casino patrons, employees and suppliers including plans for tour bus, limousine and valet drop-off areas, plans for service vehicle parking, satellite parking and other related transportation infrastructure, and plans to offer refueling, overnight bus parking, disabled vehicle assistance, and convenience store facilities on site.*

The project site will be accessed from a signalized intersection with Route 4 and the project access drive. The access drive will allow access to two surface parking lots separated by the main entrance drive to the hotel pick-up/drop-off. An access drive to the parking garage will be provided along the west side of the building.

A dedicated tour bus drop-off/pick-up area will be provided adjacent to the northern end of the building.

Truck and emergency vehicle access will be provided by a perimeter access drive around the building and parking garage. A loading dock will be located at the rear of the building that will be accessed from the perimeter access drive. A secondary access for emergency vehicles only will be provided from the proposed cul-de-sac on Thompson Hill Road.

The Attachment to this Exhibit VIII.C.14.b.1 depicts the proposed site traffic circulation.
