

EXHIBIT VIII.C.6.e – Additional Casino Details

Submit as Exhibit VIII.C.6.e. any details of casino operation that the Applicant believes should be included in the evaluation of its operation.

Capital View Casino & Resort represents many unique opportunities for success that are unmatched by any other bidder in the region. These opportunities can be found throughout our operations and include live and simulcast racing, guest services, and property management.

Our joint and rich histories in racing serve as proof of our commitment to the continued success of the sport. Our guests will be encouraged across both properties to participate in both live and simulcast wagering in Saratoga. Additionally, Capital View guests will be offered unique benefits including special nights at Saratoga Casino and Raceway including named race presentations and dinner at Fortunes.

Capital View Casino & Resort will offer a truly unique experience for our guests. Players will be encouraged to visit both properties, with offers being tailored to the property to which they show the greatest preference. Our existing player database of more than 360,000 players will be sent communications prior to the opening in order to ensure the fastest possible revenue generation. Players will be offered benefits at each property, providing a seamless gaming experience for guests, rather than an expensive and revenue cutting marketing competition between properties.

An additional area of opportunity is found in property management. Efficiencies of operation will allow for greater reinvestment into our players, while also providing career development for employees. Jobs anticipated to be lost at Saratoga Casino and Raceway will be relocated in all possible cases to the new operations at Capital View Casino & Resort. Employees will be offered new opportunities and greater potential for career advancement.
