

Exhibit X.C.6 – Renewable Energy

Submit as Exhibit X.C.6. a description of plans for procuring or generating on-site at least ten (10) percent of the facility's annual electricity consumption from renewable energy sources qualified by the New York State Energy Research and Development Authority (NYSERDA).

Approximately 22% of the electrical service requirements will be procured from renewable energy sources as supplied by National Grid. Per the Office of Energy Efficiency and Equipment of the NYS Department of Public Service, all of the electrical energy in NYS is provided by 22% renewable resources: 18% conventional hydro, 2% wind and 2% other.
