

EXHIBIT **X.C.5.** | WATER CONSERVATION

***Water Efficiency on Site:***

It is currently contemplated that the landscaping for the project will be designed with native and adaptive plants and will not have any permanent irrigation system.

***Water Efficiency in the Building:***

It is currently contemplated that the project will comply with the Energy Policy Act (EPAct) 2006 as a baseline and that the plumbing fixtures for the project will be selected to be low-flow fixtures to exceed the minimum requirements.
