

The Applicant and its consultant, Global, both have long-standing relationships with numerous domestic slot machine manufacturers. The Applicant estimates that over 70% of its slot machines will be procured from the three largest US-based slot machine manufacturers (IGT, Bally, and WMS). In addition several of the largest foreign slot machine manufacturers (including Konami and Aristocrat) are now manufacturing machines in the U.S. Therefore, the Applicant estimates that the vast majority of its slot machines will be manufactured domestically.
