

Exhibit VIII.B.2 (Player Database and Loyalty Program):

Submit as Exhibit VIII.B.2. the following:

- a. describe any loyalty, reward or similar frequent player program (a "Program") maintained by the Applicant or, if applicable, the Manager for any casino the Applicant or Manager owns, operates or manages;

Rush Street Gaming ("RSG") has established its Customer Loyalty Program, Rush Rewards. Recognized as a Best Players Club 2013 by Casino Player Magazine, Rush Rewards is designed to recognize and reward gaming customers based on their continued visitation and play. Customers are encouraged to join Rush Rewards, and use their card to be rated in both slots and tables to receive the maximum benefits through the program. Through carefully crafted and personalized offers based on play, guests feel appreciated, known, and rewarded for playing at a Rush Rewards casino. Customers receive free slot play, complimentary food and beverage, gifts and special benefits through the program.

Rush Rewards has three tier levels: Rush, Preferred, and Signature.

Three casinos presently offer the Rush Rewards loyalty program: Rivers Casino Pittsburgh; Rivers Casino Des Plaines; and SugarHouse Casino in Philadelphia. While these casinos share the name and primary benefits of the program, unlike some regional or national casino loyalty programs which require the same earning or redeeming criteria at each property, Rush Rewards allows each property to use unique earning and qualifying criteria to target the right customers with the right offers in each market.

This flexibility encourages the marketing teams to leverage Rush Rewards national benefits, while customizing on property benefits to offer the most value to local guests.

Customization includes programs such as Rush Rewards Plus at Philadelphia’s SugarHouse Casino, where Rush Reward members receive discounts and benefits at local partner businesses to encourage trial and visitation. By encouraging our Rush Rewards Members to visit local businesses, attractions and service providers, we both promote the region and local economy while providing great benefits to our customers.

Exhibit VIII.B.2 (Player Database and Loyalty Program):

Gain the advantage with Rush Rewards Plus!

Show your Rush Rewards card at participating local businesses to receive exclusive discounts and offers.

Exhibit VIII.B.2 (Player Database and Loyalty Program):

Rush Street Gaming has added compelling National benefits to the Rush Rewards program that help attract and retain gaming customers, and provide aspirational incentives for gaming guests to seek out and consolidate play in our casinos. Signature guests (the top tier) are presently offered a seven day complementary cruise, including Europe and Alaska, on Norwegian Cruise Lines. Preferred guests are offered an annual seven day cruise in the Caribbean, Florida and Bahamas. Additionally, guests are offered complimentary trips to Las Vegas and other destinations, and an array of offers ranging from golf outings, local entertainment and dinner outings, and other special events that create unique and memorable experiences.

Rush Rewards guests are provided unique service channels, such as dedicated service lines, discounts and phone numbers based on Rush Rewards membership. Top-tier guests also receive personalized host service. Rush Street Gaming has secured hosts and player management from top tier casino operations who train and support local hosts in both sales and service to premium customers. Rush Rewards provides guests with competitive and compelling rewards, service, and recognition. In 2013, 76% of Rush Rewards guests surveyed responded that Rush Rewards players club is equal to or superior to competitor player's club programs.

b. state whether the Applicant or, if applicable, the Manager maintains a casino customer relationship management system and database (a "Database") that tracks the play of its Program members;

Rush Street Gaming casinos maintain the Rush Rewards customer database on the Konami Casino Management System (referred to as KCMS). Pending all required Regulatory approvals, KCMS would be used at Hudson Valley Casino & Resort to store customer information including Rush Reward account details, customer gaming ratings for slots and table games, and customer offer and redemption data.

c. indicate whether the Program and Database will be available for the marketing, promotion and advertising of the Gaming Facility and whether they are "exclusive" to the Applicant and/or, if applicable, the Manager;

Exhibit VIII.B.2 (Player Database and Loyalty Program):

Rush Rewards would be used as the loyalty/players program for Hudson Valley Casino & Resort. This program and its benefits would be central in both the on-site and off-property marketing and advertising plans to engage customers to join, and by doing so, provide them rewards for their continued patronage. Examples of Rush Rewards promotions programs are illustrated below:

-50.1 to 100 miles			
-100.1 to 150 miles			
-150 to 200 miles			
-200.1+ miles			
-unknown			
Total			

f. describe how the Database and Program will be used to market, promote and advertise the Gaming Facility

The Rush Rewards program will be promoted in media and on property, encouraging guests to join to receive the outstanding benefits. Employees will be trained to explain how to use the card and explain program benefits to guests. Periodically guests will be offered incentives to join Rush Rewards and encourage new visitation to the market. Rush Rewards will be promoted through the following channels:

- Website pages and offers to join
- Media promotion that highlights benefits
- On-site signage, in room collateral
- Employee promotion and ambassadors

Rush Rewards members from other markets will be invited to experience the New York casino throughout the year, pending approvals, with offers appropriate to their play levels. VIP guests will be offered special trips including local amenities, while retail guests will be offered discounted hotel packages to experience the Resort and the area.
