

Submit as Exhibit VIII.C.15. a description of the planned dock and loading facilities, as well as armored car bay, including by square footage and schematic diagram. Describe their adequacy to serve the planned program (e.g. by comparison to analogous facilities).

The Montreign Resort Casino Alternative #1 provides the same level of service for planned loading dock facilities as well as armored car bay. The main loading area is in the same configuration and size, as shown in Figure 1 below, and on plans described in Exhibit VIII. C.5.a-ALT-1.

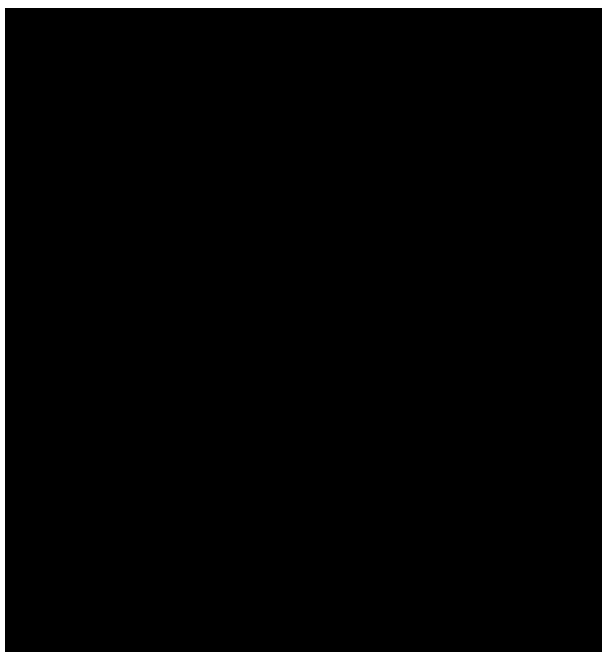

Figure 1 – Loading Dock – Alternative #1

Montreign Alternative # 1 services the armored car bay in the same manner as described in the Base Application. The only change to the area is at the Cage Cashier area, where only four (4) windows are provided to service the reduced gaming positions in Alternative #1.
