High Limit/VIP Programs and Amenities

The gaming facility is designed to offer the unique set of VIP amenities for which Genting is famous. The VIP gaming facilities start with their own porte cochere/ entry. The guest enters into a beautiful garden to a private registration area/ lounge. These VIP guests have their own elevator bank leading them up to a series of hotel suites just above the VIP entertainment facilities. If VIP customers want to visit the casino immediately upon arrival they can easily go to any one of three High Limit Gaming Casinos.

- The VIP Casino is a high level private casino in a distinctive area off the VIP Lobby. This 18,000 SF casino features a large gaming area, private gaming rooms, cashiers, buffet, bar and private toilets. The area also features a concierge and small business center.
- The High Limit Slots area is entered through the VIP porte cochere and garden. The High Limit slots will feature approximately 100 slot machines, lounges, buffet, bar and private toilet rooms. The décor is modern yet luxurious.
- The High Limit table area is also located in this district. The table area is adjacent to the casino. It will feature 25 tables, lounges, buffet, bar and private toilet rooms. The décor is modern yet luxurious.

The High Limit Gaming area planning is closely coordinated with the amenity offering. Four restaurants are distinctively planned very close to the High Limit Areas. Most of these restaurants will feature private rooms, smoking balconies and distinctive gardens.

- Beijing Hot Pot restaurant
- Cantonese Chinese restaurant
- Shanghai Cuisine Asian restaurant
- Signature chocolate / coffee/ pastry shop

The High Limit areas will also feature the following amenities:

- Easy access to the health spa and salon above
- Easy access to smoking areas
- A signature tea car serving Chinese teas and natural remedies
