Spa Fitness and Pool Areas

A 20,200 square foot spa will offer guests the opportunity to pump up, blow out, and escape the world they left behind with fitness, salon, and massage services.

The Spa features private Men's and Women's locker rooms and wet areas with both Steam and Sauna, and deep soaking tubs, as well as 16 exclusive rooms offering both wet and dry treatments. Essential oils infused with local herbs grown on the property are featured as signature scents, treatments, oils and scrubs. A small fitness room enjoys views out to the roof top garden where group fitness activities such as yoga, pilates, individual stretching, and inward meditative reflection are offered. A small private training salon also provides individualized fitness services and state-of-the-art equipment for the guests.

A beauty salon acts as an oasis ready to pamper guests from day to evening. Here, a unique menu of international treatments restores, revives, and replenishes customers in a luxurious setting. Standard salon services include hair cuts, hair color, hair style, manicures, pedicures, facials and makeup sessions.

The spa facility is planned on one level on the second floor of the resort so guests can visit the spa directly without having to go through the lobby level. Additionally, the spa also has quick access from the VIP Gaming areas.

Two pools – one enclosed and another planned on the property's exterior – allow for year round swimming. A solar water heating center is mounted atop the enclosed pool and allows it to convert to a nightclub or showroom when appropriate.
