Plans for Special High Limit and VIP Gaming

The gaming facility is designed to offer the unique VIP set of amenities for which Genting is famous. The VIP gaming facilities start with their own porte cochere/ entry. The guest enters into a beautiful lobby to a private registration area/ lounge. These VIP guests have their own elevator bank leading them up to a series of hotel suites and garden villas just above the VIP entertainment facilities. These elevators also go up to the Sky Casino which offers incredible views of the Sterling Forest Resort. If the VIP customers want to visit the casino immediately upon arrival they can easily go to the any one of three High Limit Gaming Casinos.

- The High Limit table area is located in this district. The table area is adjacent to the casino. It will feature 18 tables, lounges, a buffet, bar and private toilet rooms. The décor is modern yet luxurious.
- The High Limit Slots are located in the middle of the casino floor. The High Limit slots will feature approximately 100 slot machines, lounges, buffet, bar and private toilet rooms. The décor is modern yet luxurious.
- The second level VIP casino will feature a casino, private gaming areas, lounge, cashier and private toilet rooms. It will feature a garden and a deck. The casino will feature a beautiful window wall looking out to the impressive garden landscape. This casino will also offer direct access to the VIP seating areas in the multi-purpose hall.
- The Asian Gaming area is located in the middle of the casino close to the hotel entry. This area features private gaming areas and serves as a building with the casino floor to counter the “long narrow’ effect of the building plan.
- The Sky Casino will feature the most luxurious set of gaming suites in America. Each gaming suite will include two tables, an exhibition kitchen, private bathrooms, and bar, lounge, dining areas, cashier and even OSIM Massage Chair. Each suite will have a distinctive theme and name just as Monte Carlo features. Each room will have an architectural theme compatible with Sterling Gardens surroundings.

Plans for Special High Limit and VIP Gaming (continued)

The High Limit Gaming area planning is closely coordinated with the amenity offering. Many of the restaurants are very close to the High Limit Areas.

- Chinese Restaurant
- Noodle Restaurant
- The Steakhouse Restaurant

Most of these restaurants will feature private rooms, balconies and distinctive gardens. The High Limit areas will also feature the following amenities:

- Easy access to the health spa and salon
- Easy access to smoking areas
- A signature tea bar serving Chinese teas and natural remedies

The high limit gaming rooms at Sterling Forest Resort will be the finest VIP Casino offering outside of Macau. This design is required to accommodate the international guests that Genting's premier facilities attract.
