

CASINO

Exhibit VIII. C.6.e

Members of our management team have extensive experience in casino operations in a multitude of the biggest and most well-known casino operations in the world. Over the course of their careers they have held CEO and COO positions with responsibility for up to eight thousand slots, four hundred table games and up to ten thousand casino employees when Foxwoods was at its peak.

Members of our team have spent multiple decades with total management responsibility for operating some of the largest revenue producing casino operations in the world. These include Foxwoods which at one time was the largest casino operation in North America, Resorts World Casino New York, Resorts World Genting in Malaysia and the first few casinos in Macau. In addition to being very experienced in the regional, domestic and international markets, our management also has decades of operational experience in VIP Junket style gaming utilizing rolling chip programs and commission based table games play.

Efficiently designing and operating a successful casino floor takes many years of experience. Our team brings this experience to bear every day in our organization. Our management executives are very knowledgeable in developing and in particular catering to the highest level of customers in the industry with a hands-on approach to public relations and superior customer service. We particularly focus our teams experience and efforts on efficient yield management of the casino floor both with Slots and Table Games to get the best possible results both financially and from a customer satisfaction standpoint. Our team will lead the way in operating the casino floor with the highest level of professionalism and efficiency.
