

Exhibit VIII.C.8.b

Exhibit VIII.C.8.b Proposed business center facilities

Traditions at the Glen already has two business center facilities. On the second floor of the hotel at the top of the main staircase, there is a desktop computer and printer. The room also has a couch and a couple of chairs and can be utilized for an intimate meeting as the doors can close for privacy. There is also a small business center in the basement near the fitness center that has two work stations. This is a very quiet and private setting and has all the capabilities a hotel guest would need. A map of this location is below. There are no additional business centers proposed in the expansion as the existing rooms have proven to be more than adequate.
