This community needs an economic stimulus and the casino project is an absolute positive initiative to accomplish this goal. Our community has always advanced by the bold visions of our prior leaders...Watsons, Johnson's, Link, ..They had vision and improved our community. Times have changed...Manufacturing is no longer an option in the current economic climate. The future economic viability of this area depends on new ideas and the reality of current conditions . Traditions at the Glen has these new ideas that will improve future economic conditions. Support this plan!

After reading both proposals(at least what is publicly available) for both the Tioga Downs and Traditions casino projects, I have decided to support the Traditions bid. I believe that Traditions will provide an upscale experience that will draw more people to the area from greater distances than Tioga Downs can. I also believe that two casinos in a relatively close area will benefit both casinos and all areas in between them, rather than just one of the two counties. I wish Traditions luck through the approval process, and I hope we get to see a wonderful new addition to the Binghamton area!

I firmly believe that obtaining approval for the Walsh family to expand Traditions at the Glen into a full casino complex would be the best thing that has happened to the Triple Cities in decades. Not only would it provide much-needed employment for hundreds of people but would bring income to all sectors of the area with the influx of patrons from many miles around. I only wish the approval process would be speedier so that your project could get off the ground sooner because this community needs it desperately.

I was looking at the proposed design layout for the outdoor pool. Have you considered outdoor private cabanas by the pool to hold private parties for 20-30 people, an outdoor bar for drinks and food and beverage facilities for servicing food and drinks? I did not see any set up. I saw umbrellas but really think enclosed private cabanas would be a huge hit pool side. Just a suggestion. This will be a grand addition to the local economy, revitalize the job market and create a tourism destination to visit over and over again.

To Whom It May Concern:

Kudos to the Team at Traditions at the Glen for believing in this area and driving a project that can contribute positively to the community in so many ways. I am excited about this and the great impact it can have to our economy and community. Please see and support the value to this community with your approval of the project. Believe in Binghamton and the surrounding area just like the innovative and visionary leaders at Traditions!!

Thanks for listening!

Sincerely,

Valerie Nossal

This project will breath life back into this very depressed area. The Southern Tier really needs this, not only to bring more visitors into the area, but also to bring the area back into the standards of living from long age. I grew up in this area, went away for 20 years to serve my country, and returned to the area, only to see it sputter and nearly die. This project will revitalize Broome County and the Triple Cities. Let's get this done now!

Good luck with the project. It makes far more sense to place the casino here, in proximity to the Broome county population center, than in a remote, rural location in Tioga.

I grew up in this community and would like to return after college. The Traditions site for a Casino would positively impact my community and provide employment options such as jobs and the development of new business due to the influx of revenue. Me, along with dozens of my high school friends, would love to return after graduation in 2015 and live & work here. It is an exciting idea and would continue to build on Broome Counties revitalization plans! It is a positive step in the right direction.

I am a life long resident of our community & support a casino at Traditions at the Glen. It would be a tremendous boost to our local economy; measured in jobs, revenue and morale. In addition, to allowing our community to be recognized as a "destination"!
I strongly support the Traditions location. The Walsh family has demonstrated their commitment to our community in all previous business endeavors and the quality of their workmanship and thier approach to business has been a great such a great benefit thus far. It would be an incredible mistake not to seize this opportunity! Jude Murray

I do not think the man that owns two racinos should be allowed control of this area. I do go to Tioga Downs because it is a lot closer than Mohegan Sun. I do not enjoy going there but common sense prevails. I live in Johnson City and a casino that would follow the guidelines of how tight slots should be would be an excellent start. Mr. Gural(sp) has a monopoly on the areas between Tioga County and his other business in Vernon, NY.

We support your project and hope that the selection board will award you one of the spots.

Since we live just off Robinson Hill Road, we are concerned that the outdoor entertainment concerts will produce noise levels disturbing to the surrounding housing. Have you addressed this issue, and what are your mitigation plans for this issue?

Thanks and Good Luck!

To the Walsh Family

My entire family wish you the very best in bringing this very worthwhile endeavor to Johnson City. If the innovative Johnson Family were met with the defiance and defeated by the small mined people of this area, just think what we would have missed out on. This area has a huge void left by the absence of manufacturing and this just might be the ticket to launch a better future for us all. A perfect location at the junction of 3 major highways and a people starving for new opportunity. Fight the good fight and win this opportunity for all of us!!

As a 38 + year employee of IBM / Endicott Interconnect, I was resourced in June of 2012. It took 18 months to get back in the workforce. We need these Jobs to maintain our population and quality of life. We need to keep our families and friends in the area. This would be a major step towards economic recovery for the Southern Tier. The potential impact in our area could be limitless with an economic jump start of this magnitude.

Being a life long resident of the greater Binghamton area, I tried to think of something new or exciting that was brought into this area.

Well, I guess the Broome County Arena way back in the 70's and NYSEG Stadium in the 90's. I feel its about time to bring a new and exciting venue that will benefit all walks of life. We need jobs, growth, and excitement and I think Traditions at the Glen new casino will support this and many more activities.

I am looking forward to being one of the first patrons through that door when you open!!!!

Love the fact that you are planning on bringing great entertainment to the Casino. It would be better if the entertainment was not only outside, but a facility inside as that is the drawback at Tioga Downs when we want to see a concert but the weather is inclement, we don't go if we must be out in the rain/cold. But looking forward and hoping you get the go ahead soon.

As a local small business owner, I am in complete support of the project. I feel that the addition of a casino complex in our area will help attract people to our region and in turn bring in the much needed dollars necessary to sustain and increase area businesses. Our area has faced many hard times in the recent years with the two major floods and BAE pulling out of their Johnson City location. Our tax base is eroding and we need this attraction to increase our footprint out there and be noticed. We have much to offer people traveling to our area and this is just the ticket we need to bring them here. Good luck Traditions, we are counting on this!

Dear Mr. Welch....

We need this casino in our town...I hope u get it....We need the jobs...and it would be so much better then Tiogathat place is no casino...never will be....the location for this new casino is perfect....I hear from so many elderly that go to tioga....that they would love a casino closerand it's sad because a lot of older people do no have computers ...and can't send any letters....I'm so glad u guys r putting one here....I only wished someone had done this yrs ago....I'm in support along with my 88 yr old mom....also I don't think it's fair that tioga should get it just because their here.....I hear when I go there..that their getting it , no one else..because their there already.....that's so unfair to u guys....I think there should be two casinos or keep that a race track and you guys get it....the one u want to built looks absolutely beautiful and We need it here.,,I think it would help our town Nd the economythe only thing I see missing is a bingo hall ! And considerations for one??? That would be so cool too!!! Tyand Good luck....Rosemary.....

absolutely! it would be great for economic development in the Southern Tier - it would help more than the resort, external hotels, restaurants, retail and more. Starting a Foundation, too, is a good move! I wish you all the best in this endeavor. My background is in economic development so I could go on about the benefits of this project to our area - what's so fantastic is that you already have existing infrastructure and it looks like you have the right (political) connections as well - best of luck!! you may contact me if you wish, although I did not check "yes" below

Just looking at the plans for both Tioga Downs Casino and Traditions Casino and Resort, the Traditions Resort is hands down the better looking and more well rounded venue. Hopefully the state gaming commission will also recognize this and award the license to Traditions.

I just wanted to say, I am all for the casino. I am a local college student/entrepreneur and would like to make it this big someday, and capitalize in the gaming industry as well. I plan to do what I can to support this, and if there is a time when this can be publicly traded as an investment, I would be rather anxious to invest in it. I picked up a petition paper from a local business, and will be having copies made so I can get signatures at the local college I attend.

This is truly a wonderful idea. Not so much for the gambling aspect but for the entertainment value. This area rarely gets to enjoy big name entertainment. It's never on any big name tours making it hard on locals to enjoy concerts. Hopefully this will be the ticket to change this.

The pictures of the proposed casino looks beautiful !!! We are all hoping u r the ones that get chosen ...I live right off of hooper road.,and I'm in complete support for the casino....not only does this area need jobs ...but the economy boost would be awesome too..it's so dead in this town...it will be amazing....I wished some people would quit whining and see the benefits it would bring to our area...I read up on all the reports and I think you al r doing a great job in trying to make everything go smooth...and as you know...u definitely will not please some of the people no matter what..as a former IBMer ...I think this is a huge opportunity for broome county.....and if they shoot it down....they area will keep going down.....and more people will be leaving this area ...good Luck....can't wait til it's built !!! ...đŸ~Š

As an employee of a major company I see the tremendous value such an amazing venue has to offer. The talents and business leadership of the Walsh Family will greatly benefit the Southern Tier.

I will do anything I can if asked to help make this dream a reality. Every person in this portion of New York State will be at a loss for words when we visit to hear or play here.

At the end of the day we will let the souls of Johnson and Watson know THE PEOPLE OF THE SOUTHERN TIER NEVER GIVE UP. That the dreams of our forefathers will continue to become REALITY!!!

My wife and I are excited with this! Your location is terrific, and I believe a casino here can co-incide with the slot machines at Tioga Downs. I do not buy the point that two casinos close together cannot survive and one or the other would lose money. This is NYS, and we should all pull together to create jobs and help improve our economy.

I truly hope you get the bid....it's about time we get something good for the communityI think it would be wonderful to add so many jobs here...we need them so bad...I worked at IBM...now retired....and it hurt when they downsizedit's been very bad here for the economy since and it's so sad to see the country club just sit there....and eye sore...I'd be happy to go back there and see something beautiful and booming again....there are so many elderly people here in the southern tier ...that r lonely and enjoy going to the casino...but can't make the long drives either....I think it would be nice for them..and why not bring money into our communitywe need it here too....thank you for going forward.....a lot of my friends are so excited tooo.....Good luck....we can do it!!!PS.....please please...add a Bingo Hall....so We don't have to go To Turning Stone.....it would be packed if you did ...thank you....RS...

Originally born and raised in Endicott, I moved away in 1980 to prepare for a career in the television & motion picture business. Having experienced some success, I always dreamed of returning to the area and helping out in some way to contribute to the revitalization of a town I've held close to my heart.

This project of yours may just be a perfect opportunity for me to assist in some way, as I also have experience in the gaming industry as well. I am presently living back here and if there's a position available with your organization that you might deem to be a good fit, then please, by all means get in touch with me.

All the best with the venture!

Sincerely,
Craig Vincent

Subject: Re: Our new project is underway. A message from Bill Walsh.

Bill, best of luck on your new endeavor-you and your family have really changed things around at the old IBM country club-absolutely a beautiful hotel,golf course, and banquet facilities.WIth an addition of a new casino,added hotel rooms,restaurants and stores,you would have added a shot in the arm to an area which needs some kind of economic boost. It seems that anything you delve into, you come out smelling like a rose. Last thing, of the 3 boys your parents had, you are the one most like your dad. Again best of luck---Jim Willerton

I think this is a wonderful idea that will bring much needed jobs to this area. I think we have seen so many jobs leave this area, the many jobs this will create will be a gray thing for this area and I fully support having this in our area. Thank you for keeping jobs local and wanting to invest in the Binghamton area.

I am excited at the possibility of not only jobs for the Greater Binghamton area, but also venues that will offer quality entertainment. The proposed development of Traditions into a Casino/Resort would boost the local economy. It will also be a drawing-card to bring people to the area that will not only support the casino, but also the local businesses. Traditions has a prime location as it is so close to retail businesses and other venues. The fact that there is a beautiful golf course available is a major plus as well.

We have lost so much here, and people are discouraged with the state of the Greater Binghamton area. We need to support this effort and not sit back and watch this opportunity disappear.

I strongly support putting a casino at Traditions. It offers so many advantages over Tioga Downs--- In the Traditions vicinity there are shopping malls, restaurants, movie theaters, golf courses, and colleges. Can you imagine the number of people tghat would visit the casino on graduation weekends or on parent weekends at B.U.

What is there in Nichols besides a horse track.

This is the best good news for this area in a very long time. My Dad was asked to come here in the mid 60's by IBM, amidst it's heyday. I was a teenager and learned to love this community and stayed for another 50 years. I made this my home, our children and their children. Nothing would please me more than to see it flourish and grow again. A reason for the next generation families to stay. Thank you for taking on this gigantic project.

Of course I am all for boosting our local economy. We need to do that. It's great to get contracts with big companies and to have companies stay like BAE. I work for a local school district and would like to see more going back into the schools. What we don't get to help boost, are entertainment options. I love to dabble in the casinos, I won't lie, and it would be nice to be able to do so conveniently. I am very local and have lived in the area my entire life. I would love to have something to do besides the Mets or a movie. I wish you good luck with your endeavor and hope that you will be able to build my dream sooner than later. I mean your dream. You can preferably contact me by email if necessary. Thank you.

I strongly encourage this project to spur economic growth in Binghamton. As a member of the hospitality industry in this area I am eager to see this project. Binghamton needs that year around attraction to keep business going throughout the winter. This can also provide great new employment opportunities to young professionals like myself.

Thank you

I am in favor of supporting the local community, and economy, and would even be excited for a part time job opportunity for myself, let alone, having fun gambling, and attending concerts! Where would the Casino/Concert Venue be located, and how would this effect the environment, around the glen? Has there been any environmental studies done to prove that this is a good idea for the surrounding environment of the beautiful glen? What about the golf course? Would that stay? Please contact me via email. Thanks!

This is a great opportunity for the economy of the area and a chance to employ a large number of people. I feel that when Tioga Downs open their doors they did not understand the customer market they were servicing and therefore made many mistakes. I know I helped open the facility and tried assist them and keep them from making some simple mistakes but they felt they knew better. Maybe that is why they had a number of general managers during the first three years of operation. I feel that with Traditions, being locally owned, will avoid many of the mistakes that Tioga made. It is good to think big but always keeping in mind to pay attention to the little things that make the big things better. Living and working in Johnson City for more than 22 years, this will be a just what this area needs to return to the glory days that it once knew when the Endicott-Johnson Corporation and the Triplets ballpark attracted so many people to the Johnson City and Endicott. Having a casino here would be better geographically because of its location to the Route 81 and Route 17 (86) interchange that will attract a greater number of people from outside the area, not counting the larger population already in the area. I only hope that the governmental officials who will make the decision on the license will understand that the location alone is a positive reason to place the casino here. A study of the demographics of the area would also show that putting a casino here makes more sense than having it at Tioga Downs. Tioga Downs can continue as they are with horseracing and the New York Lottery type gaming.

i hope to hear that the concert venue will be inside instead of outside. or perhaps both. an outdoor venue limits to only summer concerts, which would decrease the options of certain artists that mostly do summer tours. though, this might seem like a better opportunity, it will decrease the amount of artists you can get in a summer do to busy schedules on their parts. i also hope to hear this will go through and everything will go smoothly. i hope that some of my favorite alternative rock artists will be able to be hosted at this venue.

This sounds like a great project for the Southern Tier!

I am a 21 years old college student from Endicott. Even though I am moving out of the area to New York City soon, I know that there is not much to do in this town as a 21-year-old besides go to downtown Binghamton (which is not always enjoyable).

I go away to school up at SUNY Cortland, and when I come home for breaks, my friends and I can never think of something new and exciting to do! This would be a great opportunity for people of all ages.

You have to get this word out to as many people as you can!

10 years ago, a gentleman I know said one day...Casinos should not be just found on Indian Reservations. This fellow told me that he invisioned a casino located on the spot where the IBM Country Club was. Now, I imagine he also included the Homestead in his vision. He talked about the location to Routes 81, 88 and the coming 86. He was ahead of his times for sure. If you are interested in who this person was that said this, just ask and I'd gladly tell you. I am a supporter of this vision. As an aside, I like the way you have tied in the "T" of Tradition with the work THINK.... coined by TJ Watson. Good Luck.....

For years I have been telling anyone who would listen that this area (Tri Cities) should be a destination. Years ago I did some work in Huntsville Alabama. My father was born upriver (Tennessee River) in Florence so I got to explore the area and meet the locals. You couldn't drive into Huntsville without seeing a sign at multiple locations, on every road, letting you know how many miles it was to "Rocket City USA". When you got there they really had made Huntsville a destination with heaps to see and do.

Years and years ago this area should have become "Computer City USA". The heritage in this area is huge. Traditions Casino can be the catalyst to get this community moving again. And with the assistance of the community make the Tri Cities a destination not a blow by on Interstate 81 or 86.

Dear Michelle,

For nearly 100 years, Traditions at The Glen has been a vital part of our community. Every round of golf, every wedding, banquet, celebration and each overnight getaway has helped build our reputation for providing a high-class, luxurious facility that can meet your every need.

What many people don't realize is that the facility that we now call Traditions At The Glen has undergone many changes over its history, beginning first as a private home, and eventually becoming a private resort and country club just for IBM employees.

When we took over in 2006, we decided to provide access to this beautiful facility to the public, donating the IBM Glen to a public conservation group and re-imagining the training center as a Resort and Hotel.

Our community has embraced these changes, and for your support we thank you.

Our area has suffered the loss of major employers and the decline of well-paying jobs. Our young people are

leaving the community in droves after college, starting their careers and raising their families elsewhere. It's time to think big - REALLY BIG - for the future of the Southern Tier, and we're excited to announce the next stage in Traditions' history - The Casino at Traditions at The Glen.

With the passage of the gaming referendum on Election Day - voters in Broome county approved the measure by a 2-to-1 vote - we see an exciting new opportunity to bring upwards of 1,500 new jobs to our community by building a world-class, \$150 million expansion to Traditions at The Glen. While we're doing so, we will protect the integrity of the Traditions you know and love, all while providing much-needed jobs and tax dollars to our community.

Again, Thank you for your support of Traditions at The Glen.

For more information on our project, **[visit our website](#)** or **[follow us on Facebook](#)**.

Looking forward to the future,

Bill Walsh

Having a casino at Traditions at the Glen seems to be the only logical place to build it in the Southern Tier. For many reasons.

1. Has the largest population close to this site.
2. Easy access from 3 major highways. Routes 81, 86 and 88
3. A great deal of land available for expansion.
4. Already has an 18 hole golf course, spa and hotel with dining rooms and bar.
5. Will benefit other local business's with additional patronage like the Oakdale Mall.
6. Add many needed jobs in this area.
7. The Walch's are willing to spend twice as much for this casinos it's competitors.
8. Additional tax base and revenue for the area.
9. The majority of people will not have to drive that far.

I could only wish this be up and running today. What a beautiful location. Please don't forget the employees you now have. This will be so great for our community. Finally, something great for our area. Thank you Mr. Walsh and family. You have a Beautiful facility now. With the golf course, hotel and views, you can't go wrong. Please hire as many local residents to work at your facility. With the right training they will be a great fit.

Thank you

[CLICK HERE!](#)

Dear Bob Congdon,

For nearly 100 years, Traditions at The Glen has been a vital part of our community. Every round of golf, every wedding, banquet, celebration and each overnight getaway has helped build our reputation for providing a high-class, luxurious facility that can meet your every need.

What many people don't realize is that the facility that we now call Traditions At The Glen has undergone many changes over its history, beginning first as a

private home, and eventually becoming a private resort and country club just for IBM employees.

When we took over in 2006, we decided to provide access to this beautiful facility to the public, donating the IBM Glen to a public conservation group and re-imagining the training center as a Resort and Hotel.

Our community has embraced these changes, and for your support we thank you.

Our area has suffered the loss of major employers and the decline of well-paying jobs. Our young people are leaving the community in droves after college, starting their careers and raising their families elsewhere. It's time to think big - REALLY BIG - for the future of the Southern Tier, and we're excited to announce the next stage in Traditions' history - The Casino at Traditions at The Glen.

With the passage of the gaming referendum on Election Day -voters in Broome county approved the measure by a 2-to-1 vote - we see an exciting new opportunity to bring upwards of 1,500 new jobs to our community by building a world-class, \$150 million expansion to Traditions at The Glen. While we're doing so, we will protect the integrity of the Traditions you know and love, all while providing much-needed jobs and tax dollars to our community.

Again, Thank you for your support of Traditions at The Glen.

For more information on our project, **[visit our website](#)** or **[follow us on Facebook](#)**.

Looking forward to the future,

Bill Walsh

Of the 3 parties vying for this license, I believe the Walsh family is the top choice. Why, because they do things right. They don't cut corners and look for the easy way out. I believe their product would be one of quality, that would attract many people. I, personally, don't know any of the Walsh family, I just know their reputation of integrity and quality. Their proposed location is superb. It's right in the middle of the Triple Cities & Vestal. I can't think of a better location or family to own a casino in this area.

I think that this will bring much needed industry into an area that has been depressed ever since IBM went out of business. It is located in an area that is close to the highway, shopping and other service industries that would be convenient to those frequenting the Casino. In my opinion, we need this.

I would love to see your location get the go ahead for this project. As the state has shut down the natural gas industry for now there is very little opportunity in this area. I love the idea of adding a 12 acre concert venue. The possibilities are endless. My bachelors degree is in sports management and my masters is in recreation management. I understand how much this could potentially add to our community. This type of project is exactly what this area needs.

I think you are presenting a fantastic total package that will best serve the community. Tioga is only extending what is offered and the location is not the best. The Vista Group seems to have no up front plan and will figure it out later.

My wife and I are familiar with the Homestead At The Glen Project. Unfortunately it did not work out that we were able to buy 18 Eagle Drive. We loved the property and the lifestyle concept being offered.

I spoke with Jim Walsh at length about the Walsh & Sons company at one time during contract talks. Everything they do is high quality.

I believe that you will have a winner.

Not necessary to contact me unless I can be of any help.

I saw how Mohegan Sun and Foxwoods revitalized SE CT in the 90's when I was working there. It would be great to have a local facility like that here.

I used to rent Sound and lighting equipment to both casinos in CT. It will be great to have top name entertainment here again. Plus now I rent outdoor searchlights both locally and nationally.

Good luck with your bid!

Congratulations on the announcement this evening. The owners and management of the Homewood Suites are rooting for Traditions at the Glen. If there is any support that we may offer to assist Traditions in winning one of the Proposition One sites, we will be here for you.

I previously worked in the casino row area of Biloxi, MS and witnessed the revitalization of that area myself. Even after hurricane Katrina, the Biloxi casinos rebuilt so quickly and the area continues to prosper. I believe that your location is ideal. It will be my pleasure to endorse your bid and you also have the full support of the owners of our hotel, the Bedosky family.

Including the word "THINK" in your initial website address should trigger support from the Southern Tier. That, and the promise of a Foundation to aid, Not for Profit, groups in the Triple Cities sends nothing but positive overtures to the listening ear of the locals. The Southern Tier has had numerous negative events over the past couple of decades and the promise of things to come with project, alone, is a very strong message to all. It, in of itself, could change the entire landscape of the region for the better in the next several decades. We need to have dreams for our future but, you also have to have the plans and the tools available to realize those dreams and the Walsh Family definitely has both. I wish the Walsh Family the absolute best of luck and good fortune going forward with this momentous undertaking. Their success means a bright future for our area and needs to be supported to the fullest!

I'm excited about the opportunity for traditions and really hope your awarded the casino. It would be so much easier to your location, than having to travel the 70+ mi. from my home to Tioga Downs and back, or taking the Shafer bus trips twice a month to Mohegan Sun in PA, (they know how to take care of their bus trip excursions) Being reired, I'd even be interested in a part-time job if available. I'ts about time someone expressed interest and concern for our area. I'm pulling for you and GOOD LUCK

I think this project is a fantastic idea. I live in Endwell and believe this is the shot in the arm our area needs. You have the perfect location and amenities already in place to make this work. I wish you the best of luck when the decision is handed down. Please feel free to contact me if needed.

building a resort and casino here in the southern tier is a fantastic idea. i myself in the past have been to traditions for golf and its so beautiful on the grounds. certainly there's plenty of space for such a project and can imagine the economic boost it will provide to an area much in need of economic recovery. i support the project completly and hope all goes as planned. looking forward to visiting the new resort and hope its completed soon.

really hope this goes through for you. The area really needs something that will not only attract more, but also help offset the taxes that have seemed to go up and up. I commend you for taking such a high profile stand. Everyone with whom I've talked with are for it. Get Er Done !!!!!

I have tried 3 times to send a email to my legislator but each one failed. I hope that you get the casino just to have a better place to go than Tioga Downs who everyone complains about because they do not pay out due to no competition. Also you would be a lot closer to travel to...good luck.

Sent: Friday, December 27, 2013 11:03 AM
To: support@thinkbigreallybig.com
Subject: Re: Are you thinking REALLY BIG? Please show your support.

Dear Mr. Walsh;

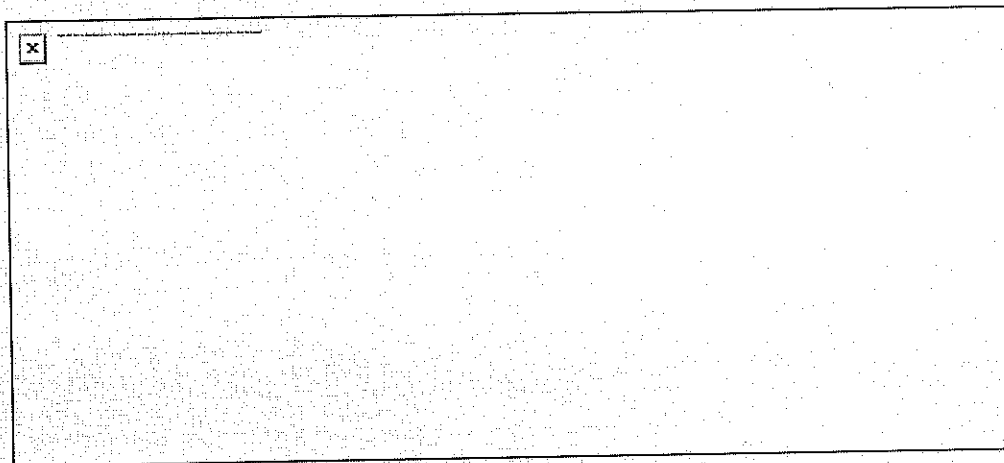

I am in support of the casino and enlargement of the hotel and conference center. I do not live in the Triple Cities area, however my Mother does and if this could bring in more jobs and increase the value of the property in the area, that would be wonderful. As a child of a former IBMer, I have many fond memories of the hotel and Glenn. My father not only worked for IBM, but also had a musical trio(Touch of Class) that would perform for many functions that took place there. When I go back to the area, I always try to stop by to see the improvements that have taken place.

I work in the hospitality business as a Sales Manager at the DoubleTree by Hilton Orlando Airport so I encourage any growth in your area. The state of Florida has casinos on Indian owned property and are trying to do what New York state has done to open it up to other areas for this opportunity. I will continue to follow the progress and THINK BIG!

Happy New Year!

Lisa Ann Kukelka

Follow Along!

Be sure to follow us on Facebook and keep up on our project as it continues to evolve.

[CLICK HERE!](#)

The support from our community has been nothing short of overwhelming! Thank YOU!

We sincerely appreciate your support, the phone calls, emails and more.

Several supporters have asked "What more can we do?"

We would also encourage you to provide us a written letter of support to be included in our application going to NYS in 2014. (If you are able, please use your company or organization's letterhead.)

Please send your letters to:

Traditions Resort
Attn: Mr. William Walsh
4101 Watson Blvd.
Johnson City, NY 13790

Here are some other ways you can show your support...

- 1.) **Click here** to complete a form which will generate letters to your legislative representatives.
- 2.) **Click here** to sign an online petition voicing your support.
- 3.) **Click here** to follow us on Facebook.

Lastly, feel free to forward this message to all of your family members and friends to do the same.

Again, Thank you for your support of Traditions at The Glen.

For more information on our project,
visit our website or **follow us on Facebook**.

Looking forward to the future,

Bill Walsh

With the exception of the REALLY BIG "T" on the top of the building, it is beautiful . That big T cheapens the look of the place even now. I don't know who thought putting a large illuminated light on top of a beautiful classy building was a good idea. It was not.

The addition of a Casino and Resort at Traditions at the Glen would be nothing short of a huge economic boost to the community and local residents. I have a been a local resident all my life and would love to be part of effort to bring the Casino to Traditions at the Glen. I am currently unemployed and have 32 years in corporate accounting. Working at your Casino would be challenging and exciting. Where do I sign up to work for Traditions at the Glen Casino and Resort?

Hi my name is Jake and I am really excited about the casino opportunity. I play poker a lot in my free time and I am thinking of taking classes in being a casino dealer. I will be applying to work there as a banquet server part time. Is it a good idea since I live here locally to get my certified casino dealers license once it goes up? Any feedback is appreciated. Thank You.

I completely support this venture in the Town of Union. As already stated, with the loss of many jobs in the Southern Tier, this can only help create jobs and improve our economic position across the board.

The location is excellent providing the opportunity for growth in this depressed area on this side of the River. Possible revitalization of the old Country Club? Sure would be nice to see that happen.

Since you have already donated the Glen to the community, how about the performing arts? Maybe an opportunity for the local EPAC and Cider Mill Playhouse to get support at your facility? Promote the local community and help them flourish!

I also think that co-promoting Tioga Downs could be a win-win situation for everyone!

Congrats! I will continue to support you and your business!

I personally dislike gambling and would not spend time at the casino. If smoking is allowed, that would increase my dislike for the project as it affects my asthma. But I know my parents, in-laws, and even my husband enjoy it from time to time. I would hope that if the casino is created, that it is tastefully done, and I could still enjoy the spa facilities without feeling as if I have to travel through the casino or have difficulty booking appointments. Good luck!

Question about the existing golf course: Your schematics appear as though the existing practice greens and the Pro shop will be displaced. Will they be replaced? Where? Your presentation indicates you have thousands of acres to devote to entertainment (ie concerts). Will this affect the course in any way? Your entire web page (very well done by the way) basically offers no mention of the golf course. What are your plans for the course if you win the license for the casino?

I am hoping Traditions gets the gaming license in the Southern Tier. I work in Tioga County and see that the only beneficiary of Tioga Downs is Jeff Gurell (sp?) who is not a resident of the Southern Tier. The Walsh Family has roots in Broome County and a casino at Traditions could benefit many local small businesses. All of Tioga County has as many residents as the City of Binghamton. Many more people would benefit from and enjoy a casino at Traditions than at Tioga Downs.
