

Exhibit VIII.B.6. - New York State Subcontractors and Suppliers

Submit as Exhibit VIII. B.6. a description of the Applicant's plans and minimum commitments (expressed in terms of annual biddable spend) for use of New York-based suppliers and materials both in the construction and furniture, fixtures, and equipment furnishing phase of the Applicant's project and in the operational phase of Applicant's project. Provide copies of any contracts, agreements or understandings evidencing such plans or commitments.

See attached prepared by LPCiminelli on behalf of Tioga Downs.

Applicants are strongly encouraged and expected to consider New York State businesses in the fulfillment of the requirements of the License. Such partnering may be as subcontractors, suppliers or other supporting roles.

As construction manager for Tioga Downs, LPCiminelli brings more than 50 years of construction expertise to the Gaming Facility in New York State Application. LPCiminelli's history and construction expertise can be found in Exhibit VIII.C.18.a.

As a New York based firm, LPCiminelli understands and supports the need to create robust community involvement in the Tioga Downs project. LPCiminelli has established strong working relationships throughout New York State with contracting communities for a half-century. We know and understand the subcontracting community, which allows us to keep our fingers on the pulse of the market. We have the ability to tap into our immense aggregate of contacts, which strongly consists of New York State vendors, to market the project to the contracting community driving interest and competition.

Additionally, LPCiminelli utilizes a web-based qualification system, iSqFt, and documents history in it. With risk being an inherent element of all construction projects, this prequalification process is a screening process applied to subcontractors before bidding to help mitigate the risk of project failure. The procedures ensure the vendors are in good standing to deliver the specified scope of work.

LPCiminelli has successfully worked with Project Labor Agreements (PLA) on a host of projects. For this project, LPCiminelli has already executed a PLA with the Binghamton-Oneonta Building Trades. A copy of this PLA has been included in Exhibit X.B.5 of this application. We are very familiar with the local contracting and supplier community within the Southern Tier of New York, and maintain excellent working relationships. Union subcontractors and suppliers recently under contract at Tioga Downs include Streeter Associates, William H Lane, Inc., Blanding Electric, Frey & Campbell, Allied Fire Protection, Matco Electric and Gorick.

LPCiminelli's goal will be to maximize opportunities for local union subcontractors within 50 miles of Tioga Downs to work on this project. We have prepared a preliminary procurement plan to further demonstrate our understanding of the Southern Tier marketplace as follows:

LPCiminelli also maintains national relationships with specialized subcontractors and suppliers in the gaming industry for millwork, various theming elements and surveillance just to name a few. Additionally, LPCiminelli commits to successfully implementing a plan to ensure that certified minority and women-owned businesses (MWBEs) are encouraged to participate in the Tioga Downs project. See Exhibit X.b.2 for more information.

LPCiminelli has also prepared the following preliminary biddable spend by division in an effort to demonstrate how we would maximize New York State participation.
